WWW.BENZASSOCIATES.COM

Welcome our new employee, Aaron Abner. Aaron joins our Personal Lines department as an Account Executive. He is also licensed to sell Life Insurance and would love to give you a quote. “After starting my insurance career 2 years ago, I have found a place I wholeheartedly believe in at Benz Associates! I love working with the team here. The most enjoyable part of my job is the day-to-day interactions with customers and answering all of your insurance questions. Originally from Cincinnati, I started out as a State Farm agent. I moved to Buffalo to help friends start a few local businesses and immediately fell in love with this city. I am excited for the opportunity to serve this community and do my best for our customers!”

We are open every day M – F but are working on a hybrid system so it is recommended that you make an appointment.

If you are a ride-sharing driver, you must answer two critical questions before you accept your first fare: First, will my insurance help me if my passenger or another party is injured while I am driving for a ride-sharing service? Second, will my insurance help me if my vehicle is damaged while I am transporting passengers for a ride-sharing company? A typical personal auto insurance policy may not provide coverage or ride-sharing or food delivery service. Please call the office to go over your options.

Protecting your business is as important to us as it is to you – particularly when dealing with large losses beyond what your primary insurance can cover. A Commercial Umbrella Insurance policy adds an additional layer of protection help safeguard your assets should your business become faced with a large claim or lawsuit. This policy provides higher limits of liability for auto, general liability, and employer’s liability.

Consider these liability risks:

- A customer is injured when falling down slippery steps, causing injuries that require long-term care.
- An employee in a company vehicle rushes through a traffic light, resulting in an accident that causes severe injury and property damage.

Data breaches involving your customers’ and employees’ nonpublic personal information can threaten any size business – and almost half of all data breaches happen at small businesses.

Some common ways they occur include:

- Lost or unsecured laptops, smartphones
- Stored documents left unsecured
- Hacked accounts & databases

Data Breach Response Expenses coverage and Data Breach Liability coverage can help with costs business owners come legally obligated to pay.

Please call Lisa, ext 102, for more information.

For each of your referrals that we quote, we offer a \$10 coupon to certain restaurants or a \$5 Tim Horton’s gift card. This is open to everyone and no purchase is necessary. Thank you for your continued support.
